Insufine™

Disposable Injection Pen Needles

Less pain every day

- Sharp 3-bevel needle tip
- Cross-linked silicone oil coating

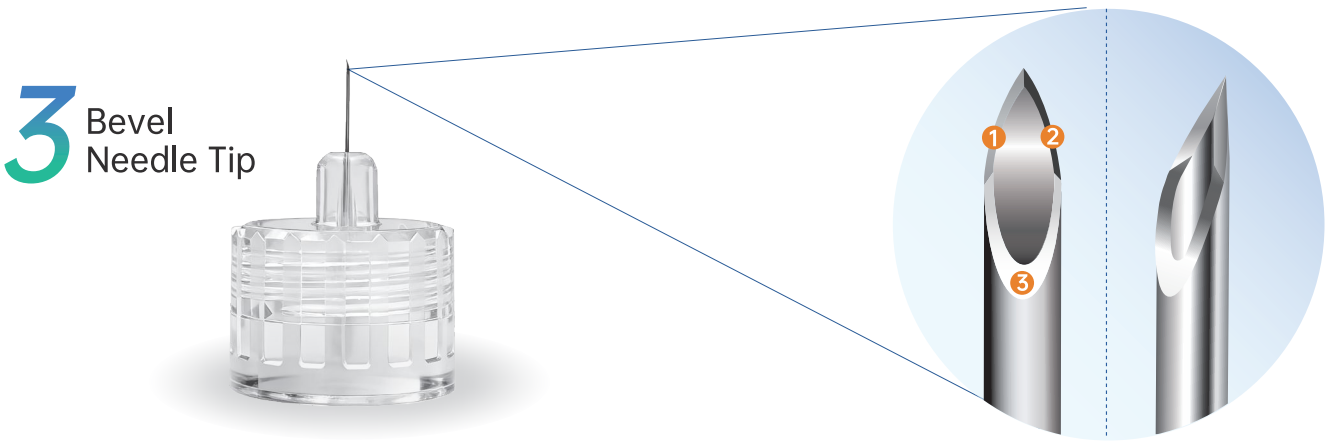

- Unique extra-thin wall technique
- A wide range of needle specifications
- Vertical injection without pinching the skin
- Good compatibility, security and convenience

NEXTECH™

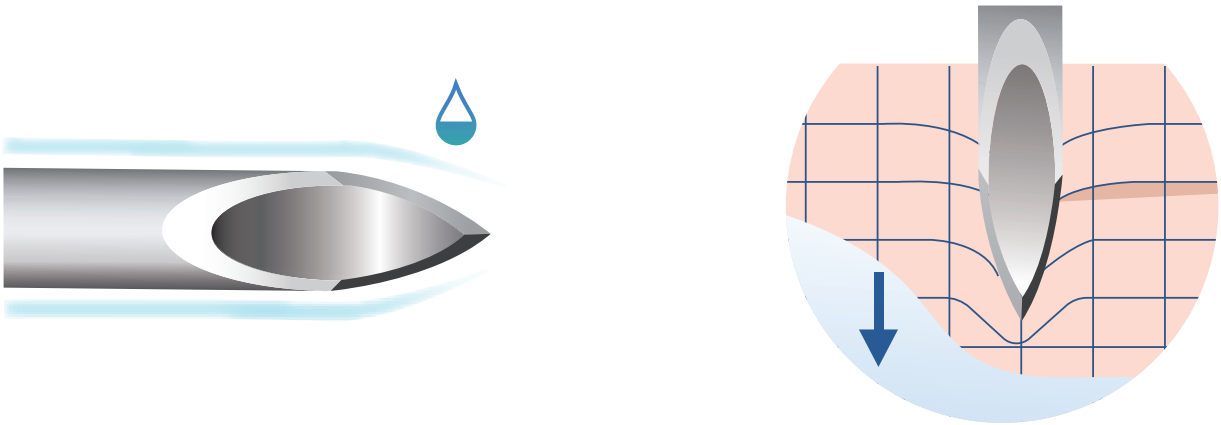

Sharp 3-bevel needle causes less skin trauma and less pain.

Carefully crafted needle tip greatly reduces skin damage, which results in less pain.

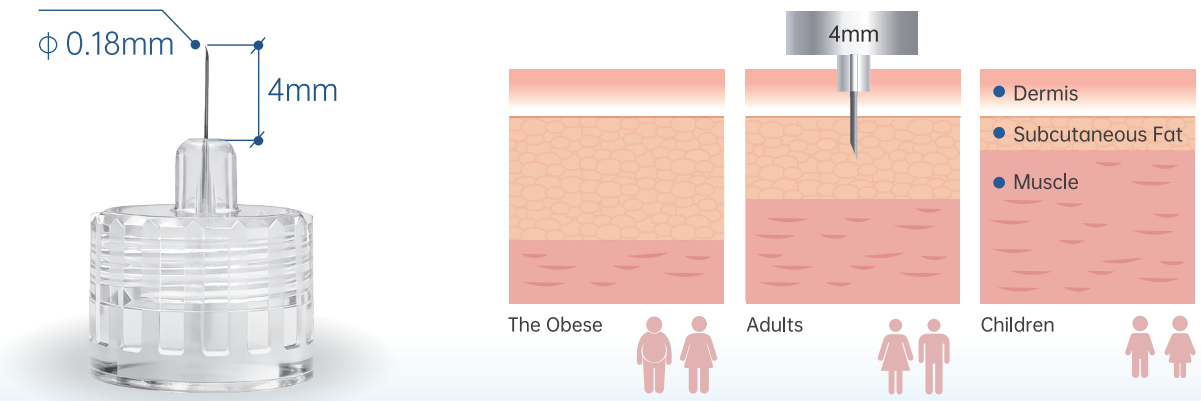

Cross-linked silicone coating offers lubricious and smooth injection process.

The coating minimizes resistance while penetrating the skin, which brings lubricious and virtually painless injection experience.

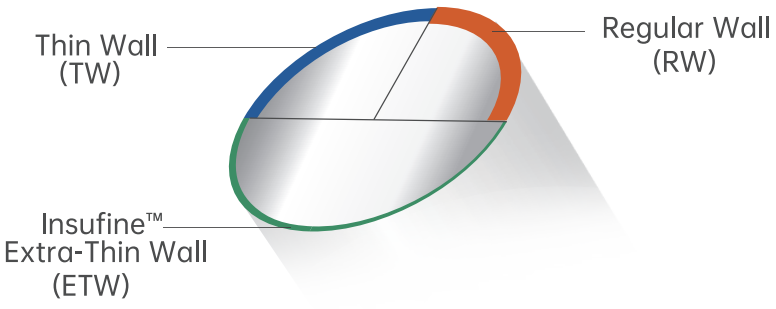

The ultra-fine/short type enables vertical injection without pinching the skin.

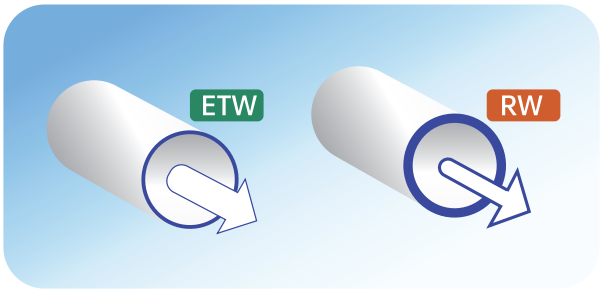

Insufine™ 34G×4mm can meet the needs of different types of patients, such as the obese, adults and children.

Unique extra-thin wall. Rapid drug delivery. Shortened injection time.

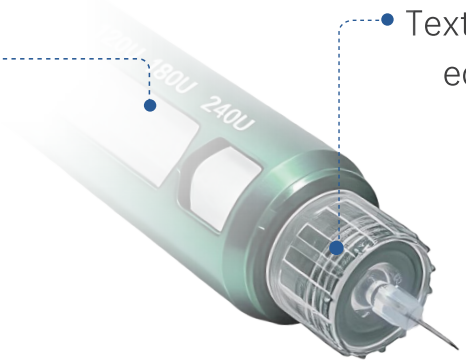

Insufine™ ETW has lower risk of blockage, and delivers medication at a faster flow rate, resulting in a smoother injection experience.

Excellent compatibility, security and convenience.

Compliance with ISO 11608-2:2022 ensures stable compatibility with pen injectors from mainstream brands on the market.

Textured needle hub enables easy twisting, lower risk of accidental puncture, and enhanced safety.

Wide specifications available for diverse needs.

Types of ultra-fine/short, extra-fine/short, and extra-fine are perfectly paired with RW and ETW cannula to meet diverse patients' needs.

- Ultra-fine/short Type：

0.18mm×4mm (34G×4mm)

0.2mm×4mm (33G×4mm)

0.23mm×4mm (32G×4mm)

- Extra-fine/short Type:

0.25mm×5mm (31G×5mm)

- Extra-fine Type:

0.25mm×6mm (31G×6mm)

0.25mm×8mm (31G×8mm)
