Vial Adapter *Vial to Bag*

Approved by Australian ARTG, Health Canada and Saudi FDA.

Version 1_2026-07-20

Features and Uses

The Vial Adapter (Vial to Bag) is a needle-free and easy-to-use device that enables reconstitution and transfer of a drug between a vial or syringe and an IV bag prior to administration to the patient.

Better For IV Drug Distribution

- **Universal Design**
  Compatible with any manufacturers' 50, 100, and 250mL IV bags.
- **Nurse-Friendly**
  Easy-to-use process simplifies the admixing procedure and maximizes the number of drugs available at POC.
- **Point of Care (POC)**
  Immediate-use preparation of medication enables timely delivery to the patient.
- **Safety**
  Needle-free design minimizes the risk of sharps injuries.

NEXTECH™

Product Series

VA-4SV13 & VA-4SV20

- Consists of a vial adapter body with a single piercing sector, and an IV spike coupled with an IV port.
- Available for 13mm and 20mm closure vials.
- Suitable for use with liquid and powder medications.

VA-4SN

- Consists of a swabable valve and an IV spike coupled with an IV port.
- Suitable for use with liquid medications.

Certificate Information

- Australian ARTG Certificate: DV-2025-MC-14825-1
- Health Canada Medical Device Licence: 113412
- Saudi FDA Medical Device Certificate: ME0000000773SFDA00010
